

Shagun Mankotia

COMPUTER SCIENCE ENGINEERING — AI & FUTURE TECHNOLOGIES

Punjab, India • 9115850273 • shagun8595.beaift25@chitkara.edu.in • linkedin.com/in/shagun-mankotia-bba7b6304

CAREER OBJECTIVE

- Motivated Computer Science Engineering student specializing in Artificial Intelligence and Future Technologies at Chitkara University.
- Strong interest in AI, programming, and web development, with hands-on experience building functional front-end projects.
- Seeking opportunities to apply technical skills, develop innovative projects, and grow as a software developer.

EDUCATION

B.Tech - Computer Science Engineering

Expected Graduation: 2029

Chitkara University | Specialization: Artificial Intelligence & Future Technologies

TECHNICAL SKILLS

Programming: Python, C

Web Development: HTML, CSS, JavaScript (Basic)

Tools: VS Code, Git, GitHub, Vercel, Netlify, Microsoft Excel

Core Knowledge: Problem Solving, Algorithms Basics, String Manipulation

PROJECTS

Task Calendar - Interactive Task Management Web App

- Designed and built a browser-based calendar application that lets users add, edit, and delete tasks directly on specific dates, turning a static calendar into a working productivity tool.
- Implemented dynamic DOM updates with vanilla JavaScript so tasks appear, update, and disappear instantly without reloading the page.
- Structured a clean, responsive HTML/CSS layout so the calendar grid and task details stay readable across screen sizes.
- Focused on intuitive UX — clicking a date opens a simple task editor, making day-to-day planning fast and clutter-free.

HTML CSS JavaScript DOM Manipulation

Binge Hub - Entertainment Website Interface

- Built a responsive entertainment-themed website interface using HTML and CSS.
- Designed structured layouts for displaying movies and shows with clean UI styling.

HTML CSS

String Analyzer - Python

- Developed a Python program that analyzes strings including character counts, pattern detection, and string manipulation.

Python

CERTIFICATIONS

Infosys Springboard

- Python Foundation Certification
- HTML5
- The Language - Infosys Springboard
- Specialization in Natural Disaster Risk Assessment
- AI and Disaster Management

Inter American Development Bank

- Natural Disaster & Climate Change Risk Assessment Specialization
- Decision Making and Governance of Natural Disaster Risk
- Qualitative and Quantitative Analysis of Disaster Risk
- Natural Disaster Risk in Infrastructure Projects

LANGUAGES

- English, Hindi, Punjabi
